TELNET TEST

1. Set Password for console login (only password)

```
Router (config) # line console 0
Router (config-line) # Password test console
Router (config-line) # login
Router (config-line) # exit.
```

2. Set telnet authentication for three user with username password.

```
Router (config) # username console1 Password console
Router (config) # username console2 Password console
Router (config) # username console3 Password console.
```

To use Authentication.

```
Router (config) # line vty 0 4
Router (config-line) # transport input telnet
Router (config-line) # login local
Router (config-line) # exit
Router (config) #
```
